PROJECTS

Pre-School Website
Flower House Creche Care
Description: Designed and developed a fully functional and responsive website for a preschool, providing parents with easy access to essential information about the services, educational approach, and facilities. Features include a captivating photo gallery, an intuitive contact form for inquiries, and a user-friendly online enrolment form, streamlining the enrolment process for interested parents.
Role: Sole Developer and Designer
Stack: HTML, CSS, JavaScript, Bootstrap, PHP
Live site link: www.flowerhousecrechecare.com.ng

Restaurant Website
LKOFoods
Description: Crafted a user-friendly restaurant website that connects diners with the establishment's offerings, providing easy access to the menu and online orders via WhatsApp. Visitors can also share and read reviews, enhancing the online visibility and fostering a sense of community among patrons.
Role: Sole Developer and Designer
Stack: HTML, CSS, JavaScript, PHP, MySQL
Live site link: www.lkofoods.com

Business Website
Career and Consult
Description: Developed an informative website detailing the company's range of services, featuring insightful articles, and enabling users to conveniently schedule appointments for various services. This project involved creating a user-friendly interface to enhance client engagement and streamline access to valuable resources.
Role: Sole Developer and Designer
Stack: HTML, CSS, Bootstrap, JavaScript
Live site link: www.careerandconsult.ng
